OUR 45th ANNIVERSARY SEASON

2020-2021

**THE OLDEST PROFESSION
THE UGLY DUCHESS
THE LOOK
SOMETHING UNSPOKEN**

Our 45th anniversary season

is a quartet of plays that offer stage time to several favorite performers with a longstanding history with NLT. This collection throws open the doors for actors in their fifties, sixties and seventies, and these exciting and challenging texts have been chosen in order to talk of the economic situation of women in a male society, the need for security in old age, the fears of death and change, and the age-old notion that a woman's best—and sometimes only—bargaining chip is her body.
